

Lasting Value for tokenized assets.

DAO governance, and verifiable provenance, PRÜF enabled physical and digital assets are what NFT's should have been all along.

With features like permanent storage,

# What is PRÜF?

PRÜF is a next generation protocol that gives brands and creators control of their blockchain identity with branded Nodes. Node operators instantly create media rich, platform interoperable assets with built in features like permanent media storage, royalties, monetization, and more.

TRUSTLESS INTEROPERABILITY is the key to a vibrant asset ecosystem for next generation applications like NFTfi tranches, asset bundles, universal provenance, metaverse assets, gaming, and more.

All platforms using PRüF enjoy the same set of on-chain trustless features, making asset interoperability simple. Node operators can permit tokens access to their platform through a trustless, on-chain permissioning system. Since platforms can trust the audited, DAO governed protocol, they can be sure of the same security guarantees for foreign assets as they are of their own.

PRüF allows Tokenized Assets to finally fulfill the the promise that blockchain assets imply - permanent, immutable value.

#### Makes it easy for content creators or manufacturers

to tokenize their products, adding value, security, and provable authenticity for users.

## manage their blockchain

presence in much the same way they control their website and social media. PRÜF

no app required

#### PRüF gives brands and creators tools to curate

the customer experience, eliminating unfavorable comparisons to inferior products or imposters.

No Special App Required.

Open the camera app on

a smartphone.

(Or enter the item information)

Lost or stolen items may list a bounty, items for sale display a "purchase now" option.

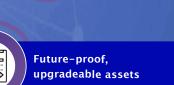

DAO managed, decentralized, Verifiable authenticity and provenance and audited network

proven, extensible contract network. No blockchain development or audits are required - drastically cutting time-to-market, risk, and development costs. Launch in minutes or days instead of months.
